CCTV

**WE ARE
QUANTUM CCTV**

SEEING IS BELIEVING

ABOUT US

Quantum CCTV, has for 20 years, been a trusted partner in advanced security surveillance solutions, offering end-to-end services in supply, installation, and maintenance.

We are supported by a team of more than 90 dedicated professionals, equipped with the skills and resources to deliver reliable, innovative, and efficient security solutions.

Our highly experienced specialists are committed to excellence, and we pride ourselves on delivering professional, client-focused service that is tailored to the unique needs of every organisation.

OUR DIFFERENCE

At Quantum CCTV, we deliver a true end-to-end security solution for the domestic, commercial, and industrial sectors. From CCTV system design, planning, installation, and maintenance through to off-site monitoring from our state-of-the-art Remote Risk 24/7 control room, we provide seamless protection every step of the way.

With our head office in Durban and fully equipped branches in KwaZulu-Natal, Gauteng, and the Western Cape, our clients benefit from nationwide coverage and round-the-clock technical support—24 hours a day, 7 days a week.

Our trusted client base includes blue-chip organisations across logistics, warehousing, retail, food, education, and manufacturing, among many others.

We go beyond installation by offering flexible rental finance solutions, backed by service level agreements and our own in-house finance company, ensuring peace of mind with equipment fault cover and callout support.

Quantum CCTV is proudly B-BBEE accredited and registered with PSIRA and SAIDSA, guaranteeing compliance, credibility, and industry-recognised standards of excellence.

OUR OFFERING

Quantum CCTV has been designing, installing and maintaining electronic security systems for 20 years.

Following a full assessment of your business or premises, our skilled sales team will design an optimal security solution tailored to your needs. Our dedicated operations managers and certified technical teams are involved in each step, including successful installation, programming and final handover.

CCTV VIDEO SYSTEMS

We pride ourselves on being at the very forefront of technology.

From Full HD & Smart IP Network based CCTV through to AI Video Analytics, ANPR (Automatic Number Plate Recognition) Solutions as well as mobile device viewing & control of your installed cameras through ISP connectivity.

ACCESS CONTROL

At the heart of any security system is your access control - Questions on who has access to the premises, why and when are always asked. Our options include Facial recognition, Biometric and Card access terminals connected to bespoke door locking systems, coupled with PC Server software to keep your points of access secure and monitored.

INTERCOM DOOR ENTRY SYSTEMS

Visitor identification is vital to completing your door entry solution.

We install Video & Audio Intercom systems through a 2-Wire or IP Network infrastructure.

Our expert consultants will advise on the various options and install to your exact requirements.

IoT & GPS TRACKING SOLUTIONS

IoT or "Internet of Things" technology is at the cutting edge of the Track-and-Trace solution, utilising low power (Sub-GHz) networks, we offer 24hr monitoring of items important to you, providing peace of mind. Options include GPS real time tracking, panic & nurse call devices, functional sensors to monitor heat, water, cooling, speed, counting and many more applications. All coupled with extended battery performance and network stability.

OFF-SITE VIDEO MONITORING

We offer centralized CCTV Video management of multiple premises through our Remote Risk 24/7 Video Control room. Remote monitoring ensures a pro-active response as opposed to a reactive only response to events at your premises. Our diligent and certified operators offer EYES-ON support with full reporting while you focus on your business.
